

Tuxedo Touch™

Honeywell

CENTRALIZED CONTROL OF SECURITY, VIDEO AND Z-WAVE®
ENABLED THERMOSTATS, LIGHTS, SHADES AND LOCKS

Stay Connected and in Control

The Connected Business.

Honeywell's Tuxedo Touch™ is a state-of-the-art building controller, digital picture frame, camera viewer and security system keypad all in one.

The magnificent, 7" high-resolution graphic touchscreen provides you with the easiest way to automate and control your heating and cooling, door locks, shades, lighting, security and more from one system. Use the touchscreen, smartphones, tablets and even web-enabled televisions. Tuxedo Touch is also a dynamic communications tool for your business—letting you showcase products in vivid detail, advertise sales and special promotions, post employee announcements, floorplans and more. No other system can touch it!

Smart Server...Smart Business!

A built-in web server allows you to control Tuxedo Touch™ locally in your facility on an iPhone®, iPad®, Android™, BlackBerry®, web-enabled TV or any compatible wireless mobile device.*

No app? No problem! Control the systems and devices via any web browser within your business—on tablets, PCs, smartphones and more.

*iPhone and iPad are registered trademarks of Apple® Inc. All other trademarks are properties of their respective owners.

Set the Scene

Tuxedo Touch™ makes it easy to set scenes that occur on a regular basis—helping you save money and conserve energy. You can control temperature and lights on events or schedules so you don't waste money heating or cooling your business when you don't need to.

Video

- View live video of up to four cameras per screen around the premises on the touchscreen, smartphones, tablets or televisions
- Observe employee performance, productivity and behavior
- Keep a watchful eye over your stockrooms, loading docks, cash registers, entrances, exits and other vulnerable areas from any onsite location
- Play commercials, informational videos and product spots from an SD card

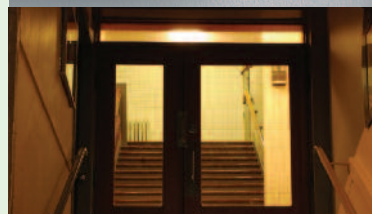

Several portable indoor and outdoor cameras available—can be placed virtually anywhere!

Z-Wave® Enabled Thermostats and Lighting

Thermostats can automatically adjust and lights can be programmed to turn on and off based on your business need—increasing comfort and reducing energy costs.

Shades

Operate the shades in your facility for privacy and security by raising and lowering them at specified times. You can also reduce sun glare on computer screens and enhance workplace comfort. It's also a way to avoid needlessly heating the premises and incur extra expenses.

Notice To All Employees

Parking lot A2 will be closed all day on Monday due to resurfacing. Lot C2 for employees.

Thank you

Fresh Cut
Rose Special Today!
\$9.99 per doz.

Dynamic Communications Tool

The stunning, high-resolution touchscreen supports over 16 million colors! You can showcase products in vivid detail, advertise sales and special promotions, post employee announcements and photos, floor plans and more.

Security Made Simple

Whether arming or disarming the system, bypassing zones, accessing the event log or controlling lights and appliances, graphic icons make security intuitive and simple.

- Icons are immediately recognizable by function to make operation crystal clear whether you're using the Tuxedo Touch™ touchscreen, PC, iPhone, iPad, BlackBerry, Android, web-enabled television or other compatible device
 - Prompts and graphics are easy to read and easy to see on the bright, crystal clear screen—reducing employee training time
 - 24/7 video surveillance accessible on the keypad, TV or touchscreen on premises
 - No complicated commands or blinking lights to interpret
 - System status can be displayed English, French Canadian or Spanish
 - Can announce the type and location of an alarm*
 - Keep tabs on employees, track when employees use the system and view when the system was used
- *Voice annunciation option available in English language only.

Locks

Lock and unlock your doors right from Tuxedo Touch™ and arm and disarm your security system right through the keypad on you lock.

Sleek, Stylish Design

The extra large screen and choice of white or silver housings are ideal in any commercial or industrial environment.

Picture the Possibilities

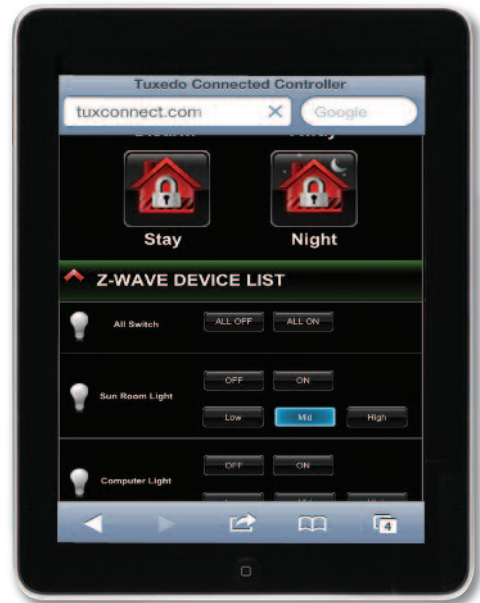

The building controller, digital picture frame, video viewer and brilliant, intuitive touchscreen are an unbeatable combination. Put Tuxedo Touch to work for your business today! Ask your custom electronics professional for details.

Tuxedo Touch™ Remote Control

You can control your security system, thermostats, lights, locks and shades—even view live video—when you're away from your business using your smartphone or other compatible wireless mobile device. You can also receive e-mail and video alerts about important events. Ask your custom electronics professional for details.
